

# I'll Be There

## Hollywood Undead

Can you see me my love?  
Up there above when you were dying  
I was dying too, look for meaning in song  
But the meaning was gone 'cause I was crying  
Right along with you if the heavens may break  
I hope for our sake that if they ever do  
I'll be there with youI woke up feeling the same way that I did yesterday  
Don't know what these tears would say  
But I miss my friend, that went away  
I watch the seasons as they go  
The rain, the sun, the heat, the snow  
I don't know much but this I know  
I miss my friend I miss him so  
I say my prayers, I raise my hands  
I move my feet and when I can  
I said help, would you help me now?  
And lift me up if my legs give out?  
I know that life is short and living is the hardest part  
And some place through the dark  
We will meet and never part  
Some place through the darkCan you see me my love?  
Up there above when you were dying  
I was dying too, look for meaning in song  
But the meaning was gone 'cause I was crying  
Right along with you if the heavens may break  
I hope for our sake and if they ever do  
I'll be there with youThe calm that comes, before the break  
The sun that sets like yesterday  
The good may come and go away  
Or bad news waits for you to wake  
We all kneel down before the storm  
When waves come crashing at your door  
I've been down been down before  
And I have faith but I need more  
Respects a dust card in our world when  
When nothing is behind the curtain  
Life is short but death is certain  
That will always be our burden  
Free, afraid to follow if I promise you tomorrow

See through the dark  
We will meet and never part  
Some place through the darkCan you see me my love?  
Up there above when you were dying  
I was dying too, look for meaning in song  
But the meaning was gone 'cause I was crying  
Right along with you if the heavens may break  
I hope for our sake that if they ever do  
I'll be there with youI had something to say  
But the words went away  
Just like they always do  
I will be there with youCan you see me my love?  
Up there above when you were dying  
I was dying too, look for meaning in song  
But the meaning was gone 'cause I was crying  
Right alone with you if the heavens may break  
I hope for our sake and if they ever do  
I'll be there with you
