

Sandwich and a Soda

Tamia

Spend the night here
That's what I'm talking about boy
I'm just saying
And I ain't playing
It ain't like that with me when we be layin'
Let me love you
You're looking tired of these basic lovers
And I know there's several
You got the highest You don't have to settle See I'm the type of the girl
To kill to love you down
Like you can be the king
And I'll bring you the crown
Like shimmy shimmy cocoa puff
Shimmy shimmy pow
Me and you on the ground
Baby now If you wanna ride these curves
Hop on this Chevy nova
And if you gonna drive with nerve
Baby I'm gon' be your chauffeur
See I can make you feel good love
And when it's all over
I'mma fluff your pillow baby
Bring you a sandwich and a soda
