

I Used to Pray for the Heavens to Fall

The Dears

Whose side are you on?
Whose side are you on?
Whose side are you on?
Whose side are you on?
No nobody's called here in days
Yeah no one ever calls these days
Looking out at the city lights
Looking down on the streets tonight
Oh no it's not safe
It's not safe
It's not safe
It's not safe
I used to pray for the heavens to fall
I used to pray for the heavens to fall
I used to pray for the heavens to fall
And now I never want this to end
See there's nothing that compares to
When i'm holed up in here with you
Yeah there's nothing that compares to
When i'm holed up in here with you
When i'm holed up in here with you
When i'm holed up in here with you
Oh no it's not safe
It's not safe
It's not safe
It's not safe
It's not safe
It's not safe
It's not safe
For God's sake
It's not safe
It's not safe
It's not safe
Whose side are you on?
Whose side are you on?
Whose side are you on?
Whose side are you on?
