

# Black Fire (Album Version)

## DragonForce

We come from  
Over the dark horizon sky  
With twisted tales of sacrifice  
To imagine or believe all the glory of the freeHunting all day an endless cry  
The things I've seen I can't deny  
Sinners, saints all mixed in one  
The dawn of time has begunWhy can't you see what they're doing to me  
Is it fair that I'm dying in vainOnce in a land of sacrifice now only valleys of demise  
Shadows of a pale blue moonlight ride the waves of entityWhy can't you see what they're doing to thee  
Is it fair that you all die in vainRide with the steel and the power of the sword  
Stand up and fight now and forever more  
Rise through the night sky with daylight's desire  
To be free there must be black fireThrough the day and through the night with dragons heart the warrior strikes  
This is the day that they'll be known as my enemyWhy can't you see what they're doing  
To what we believe in we rise through the painRide with the steel and the power of the sword  
Stand up and fight now and forever more  
Rise through the night sky with daylight's desire  
To be free there must be black fireWe come from distant lands we travel so far  
Can you see the bleeding scar  
The prizes of life we fail to win  
'Cause we doubt the power withinWhy can't you see what they're doing to  
What we believe in we rise through the painRide with the steel and the power of the sword  
Stand up and fight now and forever more  
Rise through the night sky with daylight's desire  
To be free there must be black fireBlack fire
