

Love Itch

Death By Unga Bunga

Evil woman, what's your name?
You're driving me insane.
I wanna play your game.
If I can't make it home with you
then I don't know what to do.
Oh yeah.

Would you like to stay with me?
Put yourself right on top of me.
No other chick can give me the kicks like you.

You give me a love itch,
I don't know what to do.
You give me a love itch,
it's all because of you.

I wanna get drunk, I wanna get loud.
I wanna get high - inside out.
Yeah that's what I'm talking about.
You've got the leather and the hair.
Call my name and I'll be there.

Would you like to stay with me?
Put yourself right on top of me.
No other chicks can give me the kicks like you.

You give me a love itch,
I don't know what to do.
You give me a love itch,
it's all because of you.

I gonna ask you a question I haven't asked you yet.
One I've been wondering a long long time.
Ough

Do you wanna know how you make me feel?
Do you wanna know how you make me feel?
I said: do you wanna know how you make me feel?
Do you wanna know how you make me feel?

Well, I feel alright.

Yeah, I feel alright

I feel alright.

I feel alright.

Would you like to stay with me?

Put yourself right on top of me.

No other chicks can give me the kicks like you.

You give me a love itch,

I don't know what to do.

You give me a love itch,

it's all because of you.
