Mainliner

High Rise

Nothing she can do, she's so confused
Something should be done but she'll refuse
She's got a new fix to ease her pain
She's got a new fix to control her brain
Oh no, no, no, mainliner, mainliner
Out of frustration, she unwraps the foil
Takes out her spoon, starts to boil
She used to be pretty to all her friends
But the hypodermic needle took her to the end
Oh no, no, no, mainliner, mainliner
She's boiling up, always in heat
Stick it in again, just to keep her beat
This time she'll try a little more
This time we found her on the floor
Oh no, no, no, mainliner, mainliner
