

# Forever Fields (sowing Season)

## 10 Years

from the birds eye view  
god only knew  
we were too rich to entice  
too poor for a price  
there's no life in these seeds  
it's the growth of disease  
it's sowing season  
in these forever fields  
it's sowing season  
in these forever fields  
it's sowing season  
in these forever fields  
it's sowing season  
in these forever fields  
from beneath these bones  
god only knows  
who's too dark to reach  
and too bright to teach  
there's no life in these seeds  
its the growth of disease  
it's sowing season  
in these forever fields  
it's sowing season  
in these forever fields  
it's sowing season  
in these forever fields  
it's sowing season  
in these forever fields
