A Night In

Tindersticks

I had shoes full of holes When you first took me in The path that you led Was straight to your bed There's no cots to sleep in And you showed me Who I was running from As if I had not known all alongOh my old feet They know this hard street Stay like old friends You're flat on the ground There's no further down There's no cots to sleep in So come in Leave them outside the door Tear off the paper, tear off the carpet Off the floorAnd I know you're hurting And I can't be there for you I know you're hurting And I can't be there no more I had shoes full of holes When you first took me in I had calluses, not sores And I'd like to keep themSo go turn those sheets Get back on the street There's nothing more I can bring to you Think I'm scared of the door Afraid of the floor? Well, I'll go and walk right through And I'll show you Who I've been running from It's the feeling of waking And it's goneAnd I know you're hurting And I can't be there for you I know you're hurting And I can't be there no more I had shoes full of holes When you first took me in

I had callouses, not sores

And I'd like to keep themOh now your feet They know this hard street They're like old friends You're flat on the ground There's no further down There's no cots to sleep in So come in Leave them outside the door Tear off the paper, tear off the carpet Off the floorAnd I know you're hurting And I can't be there for you I know you're hurting And I can't be there no more I had shoes full of holes When you first took me in I had calluses, not sores

And I'd like to keep themSo go turn those sheets

Get back on the street

There's nothing more I can bring to you

Think I'm scared of the door

Afraid of the floor?

Well, I'll go and walk right through and I'll show you
Who I've been running from
It's the feeling of waking
And it's gone
