

# Picture This

## Big Time Rush

(Carlos)

Picture this first kiss neath' the moonlight.

Slow dance cover band playing all night .

Meant to be,cool breeze

Feeling so right

Picture this... Picture this...

Picture this holding hands on the board walk .

Perfect date, out late, making small talk.

Arcade playing games you could win it all.

Picture this... Picture this.....(James)

When you look into your future

Who's there standing with you

When you close your eyes(All)

Do you see

When I say you and me

Its like a movie scene

That's the way

You know it should be

The two of us together

Girl can you picture this (2x)

The two of us together

Girl can you picture this (2x)(Logan)

Top down ride around all day long

Watching you rocking out to your faveorite song

Fall asleep on the beach with our shades on

Picture this... Picture this.....(James)

When you look into your future

Who's there standing with you

When you close your eyes(All)

Do you see

When I say you and me

Its like a movie scene

That's the way

You know it should be

The two of us together

Girl can you picture this (2x)

The two of us together

Girl can you picture this (2x)(Kendall)

When you look into your future

Who's there standing with you  
When you close your eyes(All)  
Do you see  
When I say you and me  
Its like a movie scene  
That's the way  
You know it should be  
The two of us together  
Girl can you picture this?(2x)  
The two of us together  
Girl can you picture this?(2x)
