## RHODES

I don't know where you've been  
I don't know where you're goin'  
Wherever you're goin'  
I'm sure it's not out of my way  
If I tag along would you tell me your story  
'Cause I want to hear every word that you've got to say  
If life is a journey  
And love is the road we're on  
I want to be the one  
The one to walk you home  
Every now and then  
I find myself driftin'  
But off in the distance  
I see something sparkling bright  
And time and again I've tried to find it  
I think I could find it if you were by my side  
If life is a journey  
And love is the road we're on  
I want to be the one  
The one to walk you home  
And I want you to believe  
There's no better place for you to be  
Than here on this road  
Walkin' along with me  
So, give me your hand  
Whenever you're ready  
'cause I think we could be headed for home  
If life is a journey  
And love is the road we're on  
I want to be the one  
The one to walk you home
