Alphabet Soup

Laika

Silence please now
I dont want a word
Got deep in trouble
And my hands got burntAint nobody love me
Thats how I got here
With pockets full of nothing
And a head full of fearYou broke a heart many a time
But you'll never break this heart of mine
You broke a heart many a time
But you'll never break this heart of mineIm a fish outta water
A soup in a basket
Gotta get to where Im going
But dont know how to ask itBelieved in a young man
Thats where I went wrong
And now Im in the gutter
And I aint got longHe was a callous boy
That much I could see
But the hearts a crazy fool
When it wants to believeIt loses all directions
Forgets how to drive
That honey saw me coming
And skinned me aliveYou broke a heart many a time
But you'll never break this heart of mine
You broke a heart many a time
But you'll never break this heart of mineYou broke a heart many a time
But you'll never break this heart of mine
You broke a heart many a time
But you'll never break this heart of mine
