Diving In

Kyle XY

V1:
i wanna go back and change every scene
every word that was said
just wipe our slate clean
but why rewind and try to pretend
we can't fix who we are
what is broken won't mendPRE-CHORUS:
but what if we'd waited instead of diving in
to something that never really did begin
what if we'd waited
what if we'd waited
maybe we wanted a little too much
jumped with our hearts not our minds
straight into love
what if we'd waited
what if we'd waitedCHORUS:
why must be try and pretend
when we both know it's over
oh it's over
we're dancing in circles again
playing our stupid games
but it's over
oh it's overV2:
you're tired of me and i'm tired of you
every word that you say
every thing that you do
but oh we tear each other to pieces
then we come back for morePRE CHORUSCHORUS[INSTRUMENTAL]CHORUS
