

Whatever Happened to You

Every Avenue

You got your little pills, some kind of cheap thrills
We use to bet who'd be the first one to make it out

You've got your airwaves some chemicals save,
Were running circles round the same thing aren't we now

Tear my love away I'll run the hell away cuz I don't recognize the face in front of me

I am the same as I was when I was younger,
Whatever happened to you?
I haven't changed but the lines on my face I'm still a person and you,
Whatever happened to you?

You know you had a chance the world in your hands you could have had it all if you'd have got your shit
straight

You're on the deep end and now your old friends
Are sick of drowning in your sorrows listen now
We fought the same fight and I stood by your side but I can't stick around and watch you crumble

Time will never wait ill learn the hard way cuz I won't recognize the face in front of me

I am the same as I was when I was younger,
Whatever happened to you?
I haven't changed but the lines on my face I'm still a person and you,
Whatever happened to you?

I am the same as I was when I was younger

I am the same as I was when I was younger,
Whatever happened to you?
I haven't changed but the lines on my face I'm still a person and you,
Whatever happened to you?
