

Deepest Bluest (Shark's Fin)

LL Cool J

Uh, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Man-made terror, hungry jaws of death
Y'all don't cross my depths, I'll pause your breaths
I cause you to sink down forty thousand leagues
Bleeding to death with no arms and short sleeves
My world's deep blue, killers gotta eat too
Looking for human flesh to rip my teeth through
Other fish in the sea but barracudas ain't equal
To a half human predator created by a needle
Jet black eyes, baby, they stare while you sleep
When your Titanic sinks, I'm the one you gon' meet
Hearing terrified screams, they surround my team
All you see is trails of blood, even God won't intervene
Nightmares of darkness, my appetite is heartless
Even if we related, you eliminated regardless
In the deep blue underwater walls
Half man, half shark, my jaws don't fall
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Our Father who art in Heaven hallowed be Thy name
Killers sworn to beast, swallowed them in flames
They switched my DNA, trip me into Cool J
I can't fight the feeling, I'm born to kill prey
To survive an attack there's only one way
Battle to the death, that's how sharks play
Weapons left behind, we dueling with the mind
You blind, crippled, or crazy, you're real easy to find
Struggling to flow with hemorrhages in your throat
Getting the lap dance while I smash through your boat
Eat your whole fam', nothing left but a right hand
Clinging to a rail, escape attempts fail
You'll never make it home, tear the flesh off your bone
Walking in undercurrents is a dangerous zone
I'm talking death out a moment's notice
You wasn't focused, me and my crew strike
Like some underwater locusts
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Deepest, bluest, my hat is like a shark's fin
Uh, uh, take it deeper
