

Dreamcatcher

[nano](#)

Do you see the light ahead?
Will you face the night ahead?

So far away, so far away
(shining ray)
forever, so far away
(arising)

So far away, so far away
(find the way)
Forever, so far away
(awakening)

Tooku no yoake wo mitsumeru hitomi wa kibou ni afureta
hirogaru kurayami no canvas ni kagayaku niji wo egaita

(LONG WAY) tada ichizu no
(NEW DAY) tada hitotsu no
Unmei tsuranuite tada yume oitsudzuketa

This night, the stars will set your heart free
Have faith, let the whole world know what you see
Hashiridasu kokoro ga ima mayowazu susumu you ni
Dokomademo michi wo yuku

Beyond the night, a miracle is waiting
Believe in the fantasies unfolding
Motomeru mirai ga zutto irowasenai you ni
Itsu made mo kakenukeru
A dream beginning

The more I try to beat reality
The more I'm losing to the weakness in me escaping
I couldn't see where the today would take me
Just waiting for tomorrow to ease the pain

Tozashite kioku no hazama ni sonna yasashisa ni fureta
nagareru mabataku hikari ni kasaneta omoide no kakera

Dou yatte ayundekittate machigai wa nai to shinjite

donna fukai kanashimi datte itsuka nigedasou

This night, the stars will set your heart free
Have faith, let the whole world know what you see
hanareta omoi ga kitto tsunagatteku you ni
sono te hanasa naideiku

Beyond the night, a miracle is waiting
Believe in the fantasies unfolding
kagiri nai kiseki ga itsuka kanatteku you ni
sono me o sorasaniadeyuku

A dream beginning
Just keep believing
A dream beginning
Just keep believing
A dream beginning
