not this time

Sandwich

You know I put my faith in you
(I gave it all to you)
There's nothing left for me to prove
(There's nothing left for me)And I won't be there when you fall
And I won't care at all
Not this time, not this time
Not this time, not this time
Where you stumble's where you fall
And I won't care at all
Not this time, not this time
Not this time, not this timeSo I push myself away
(I draw away from you)
Sadness left here in my veins
(Sadness left for me)And I won't be there when you fall
And I won't care at all
Not this time, not this time
Not this time, not this time
Where you stumble's where you fall
And I won't care at all
Not this time, not this time
Not this time, not this timeAnd I bled for you
(I bled for you)
This heart has tried
(This heart has tried)
The damage you do is what you never realizeAnd I won't be there when you fall
And I won't care at all
Not this time, not this time
Not this time, not this time
Where you stumble's where you fall
And I won't care at all
Not this time, not this time
Not this time, not this timeAnd I won't be there when you fall
And I won't care at all
Not this time, not this time
Not this time, not this time
Where you stumble's where you fall
And I won't care at all
Not this time, not this time
Not this time, not this time
