

We're All in This Together

Ben Lee

Woke up this morning, I suddenly realized
We're all in this together
I started smiling 'cause you were smiling
And we're all in this together I'm made of atoms you're made of atoms
And we're all in this together
And long division just doesn't matter
'Cause we're all in this together, yeah I saw you walking in the city
We're all in this together
The city's changing 'cause we are changing
And we're all in this together Every twelve seconds someone remembers
That we're all in this together
In the kitchen of your rent control apartment
We're all in this together Come on baby
I don't mean to rush you
I only wanted to reach out and touch you
I've gotta start to open my heart I know you think about jumping ship before it sinks
But we are all in this together
Ask a scientist it's quantum physics
We are all in this together And on the subway we feel like strangers
But we're all in this together
Yeah I love you and you love her and she loves him
But we are all in this together You know baby, there's never been protection
In all the history of human connection
Come on darling, it's alright to show me
You don't ever need to be lonely
Once you start to open your heart I saw you crying, I started crying
'Cause we're all in this together
And then religion, it's a big decision
But we're all in this together We are all in this together
We're all in this together
We're all in this together
We are all in this together We are all in this together
We're all in this together
We're all in this together
We are all in this together, in this together We are all in this together
We're all in this together
We are all in this together
We are all in this together
