

That Woman's Got Me Drinking

Shane MacGowan And The Popes

For seven long years
She helped me spend my dough
Now I take her out
She don't wanna know
That woman's got me drinking
Look at the state I'm in
Give me one, two, three, four, five, six, seven,
eight, nine, ten bottles of gin
That woman's got me drinking
We used to have some fun
Now shrinks and astrologers
Have got me on the run
That woman's got me drinking
Look at the state I'm in
Give me one, two, three, four, five, six, seven,
eight, nine, ten bottles of gin
She said she'd always love me
She said I was the one
Now look at the way she treats me
Like I'm just a piece of scum
That woman's got me drinking
Look at the state I'm in
Give me one, two, three, four, five,
six, seven, eight, nine, ten bottles of gin
If I had the guts to do it
I'd take the long goodbye
Instead I'll love her long and hard
And love her 'til I die
That woman's got me drinking
Look at the state I'm in
Give me one, two, three, four, five,
six, seven, eight, nine, ten bottles of gin
Bottle of gin, bottle of gin, bottle of gin,
One, two, three, four, five, six, seven,
eight, nine, ten bottles of gin
