Rebel Road

Edgar Winter

By Edgar Winter, Curt Cuomo, James Zota Baker, and Jake Hooker

Flying high, riding free
Fast forward and no reverse
Do me right, I'll do you better
Do me wrong, I'll do you worse

Feel that thunder a'ready to rumble
Rollin' those dice gona see how they tumble
Know it aint nothin' but a king of the jungle code

Out On a rebel road
Gona chase that midnight sky
On a rebel road
You know I was born to ride
On a rebel, On a rebel road yea

Pump it up, kick it out
Full throttle, straight ahead
They tried to sell me a nine to five
I'll do it my way is what I said

Rockin' across this American nation
School a'hard knocks is a real education
Livin' on the edge yea is all that you need to know

Out On a rebel road
Gona chase that midnight sky
On a rebel road
Fast as the wind can fly
On a rebel road
This is where I live and die
On a rebel road
You know I was born to ride
On a rebel road yea

Time time tickin' by tickin' by now
Your life goin' by goin' by now
Get up, get out on that rebel road yea

On a rebel, on a rebel,
On a rebel, on a rebel road
