

Just One More

The Miracle Jazz Masters

Put the bottle on the table, let it stay there till I'm not able
To see your face in ev'ry place that I go
I've been sitting here so long
Just remembering that you are gone Well, one more drink of wine
Then if you're still on my mind
One drink, just one more and then another I'll keep drinking, it won't matter
I'll just remember that I once had her
I don't know why I sit and cry ev'ry day
I've been trying to forget, but I haven't stopped it yet Well, one more drink of wine
Then if you're still on my mind
One drink, just one more and then another Put the bottle on the table, let it stay there till I'm not able
To see your face in ev'ry place that I go
I've been sitting here so long
Just remembering that you are gone Well, one more drink of wine
Then if you're still on my mind
One drink, just one more and then another
