

# Kiss Me (Extended Version)

## E-Rotic

Kiss me, fly me up high  
Wanna feel like a frisbee high in the sky  
Oh, I want you to kiss me, do it all right  
'Cos, I know that you miss meI dreamed of you  
In so many lonely nights  
With my body and soulAnd I know you were  
Out there in the city lights  
Just out of controlHey, I walked around and all I found  
Was me myself just losing ground  
I missed you, but I walked on thin ice  
Like a clown in disguiseAll the time, there was your face  
You, only you can end the race  
Love me, in the heat of the night  
Babe, I fell like dynamiteKiss me tonight  
Till you find the secret spot  
Up and down and againBaby, lay by my side  
And search for the honey pot  
I know that you canI'm doin' what you want to do  
You know the stories about me are true  
I'll kiss you, you know I care  
Here and there and everywhereCome closer, let me feel your tongue  
It's so good, it can't go wrong  
Together we'll climb the hill  
Oh, what a thrill, if you willKiss me, baby, I want it, I want you to miss me  
Baby, I need it, I need you to kiss me  
Baby, I want it, I want you to miss me  
Baby, I love you, I love you so much  
Kiss me, smack
