

# Watching Movies

## MAC MILLER

People worship these idols 'til they come in contact with Gods  
Hoes is all my disciples, you get mind fucked with these broads  
Life is just a recital, better remember all that you practice  
When I die, throw a couple bad bitches in my casket  
Woah, think it's time for a revolution  
Me and my dawgs 'bout to start a riot  
You still there sleeping, bet I'm eating  
You and your people are on a diet  
Tim Allen off Home Improvement  
Intelligent but we going stupid  
This some new shit

Hit the strip club, see some hoes that I went to school with  
Out in London like Lennox Lewis  
Bitch looking like Farrah Fawcett  
I'm just tryna make better music  
Get this money, share the profits  
Now this class getting led by students  
Smoke some weed, get head while I do it  
Started out under the ground  
They didn't fuck with me, now they all coming around  
Money I'm hunting it down  
Planting the seeds  
Working and watching it grow  
I got so many ways I can make money, I'll always be straight  
I just thought you should know  
Been on my grind, taking what's mine  
I got my eyes on the throne  
I'mma be fine, no matter the time

We all go along with the show That girl beautiful, somebody introduce me  
She ain't your girl tonight, nah, that bitch a groupie  
That's money in my building better give it to me  
I see you starin' at me like you in the movies  
Now you watching movies  
Looking at my life it's like you watching movies  
Looking at my life is like you watching movies

Looking at my life is like you watching movies People worship these idols 'til they come in contact with gods  
Hoes is on my disciples, you get mind-fucked by these broads  
Life is just a recital, better remember all that you practice  
When I die, throw a couple bad bitches in my casket

Woah, fuck a day job, fuck a day job  
Gotcha bitch here in just a tank top  
Gettin' paid, blow my face off  
Bitch you're bank fraud, Bernie Madoff  
Educate y'all  
Then erase y'all  
LL Cool J without the Kangol  
I don't see the need to stunt  
Wish you the best, I'mma just light up this blunt  
This bitch love me long time, don't know why she wouldn't  
Say my D could win the Heisman, yeah I'm Charles Woodson  
Couple million off a tour, thats a lot of bookings  
My bitches gorgeous looking imported from the shore of Brooklyn  
Coming from out of the 'Burgh  
Bitch, I'm absurd  
Fuck you, I hope you insured  
Hatin'? I'll give you just what you deserve, that's my word  
Put it on all that I'm worth  
Been on my grind, taking what's mine  
I got my eyes on the throne  
I'mma be fine, no matter the time  
We all go along with the show That girl beautiful, somebody introduce me  
She ain't your girl tonight, nah, that bitch a groupie
