

# Scream

Kelis

Been running in place for such a long time  
Stuck in a race in the wrong line  
When it all came down on me  
And I haven't had faith in such a long time  
Am I out of place or out of my mind?  
Should it all fall down on me?  
It's not enough to live so just dream  
It's not enough to live so just dream  
It's not enough to live so just dream  
It's not enough to say so just scream  
You'll never know  
If you don't let it out  
You've had enough  
Don't call your bluff  
You can't back down, lost in a crowd  
You've won the right to scream and shout  
Don't talk about it, you've lost your cool  
There is no point who makes the rules  
So let's get to it  
Now you'll do it  
Break out  
Scream and shout  
Scream and shout  
Scream and shout  
Scream and shout  
Been running in place for such a long time  
Stuck in a race in the wrong line  
When it all came down on me  
And I haven't had faith in such a long time  
Am I out of place or out of my mind?  
Should it all fall down on me?  
It's not enough to live so just dream  
It's not enough to live so just dream  
It's not enough to live so just dream  
It's not enough to say so just scream  
Sound the alarm  
Raise your arms  
You're on your own  
But not alone

Big cities got you on the ground  
Afraid to fight, don't make a sound  
So let's get to it  
Now you'll prove it  
Push back  
Scream and shout  
Scream and shout  
Scream and shout  
Scream and shout  
Been running in place for such a long time  
Stuck in a race in the wrong line  
When it all came down on me  
And I haven't had faith in such a long time  
Am I out of place or out of my mind?  
Should it all fall down on me?  
It's not enough to live so just dream  
It's not enough to live so just dream  
It's not enough to live so just dream  
It's not enough to say so just scream
