Miner At The Dial-A-View

Grandaddy

I found your house and I saw your car
But I've no idea where you are
From the dial-a-viewTire scraps on a federal road
Look like crash landed crows
From the dial-a-viewI dream at night
Of going home someday
Somewhere so far awaySo dream alright
I know it's gonna take some time
I'm going home somedayFifteen years is almost done
And I don't recognize anyone
From the dial-a-viewMy home, my friends, and you
I watch them fade but what can I do?
From the dial-a-viewI dream at night
Of going home someday
Somewhere so far awaySo dream alright
I know it's gonna take some time
I'm going home somedayI dream at night
Of going home someday
Somewhere so far awaySo dream alright
I know it's gonna take some time
I'm going home somedayI dream at night
Of going home someday
Somewhere so far awaySo dream alright
I know it's gonna take some time
I'm going home someday
I dream
