

Without You

Laura Pausini

Close your eyes and say good night
And hold me till the morning light
And when the sun comes shinning through
I'll kiss you one last time
And I'll begin to live my life without you Wish that I could make you stay
Ooh but I know I have no power to persuade
The heart will do what it must do
So kiss me one last time
And tell me how to live my life without you 'Cause I love you
(Without and ending)
'Cause I need you
(To be my everything)
Tell me the meaning of a life without you with me
When the night falls I'll still be standing
'Cause you'll always be right here in my heart
And in my deepest memories
I will never have to be without you Love is like a work of art
Haa once you feel it you hold it in your heart
You know forever that its true
So kiss me for always
Even if I live my life without you 'Cause I love you
(Without and ending)
'Cause I need you
(To be my everything)
Tell me the meaning of a life without you with me
When the night falls i'll still be standing
'Cause you'll always be right here in my heart
And in my deepest memories
I will never have to be without you 'Cause I love you
(Love you)
'Cause I need you
To be my everything
Tell me the meaning of a life without you with me
When the night falls
(I'll still be standing)
'Cause you'll always be right here in my heart
And in my deepest memories
I will never have to be without you
Without you
