

# She's Like A Star

Taio Cruz

like a star,a star, a star, a star (5)

She's my everything, like a morning girl  
She's my angel, up above my world  
She's the only one who understands me, that's why i call her my new family.  
She's the only one that i want by my side  
She's the only one that i believe can save my life  
She makes me wanna be a better man for while  
She's higher than the sky, the suns and the moon

[chorus]

She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh yeeeh

First let me say, She's the best of me  
is it a cleeshay, to say she's destiny  
there's no one else but her, will atleast for me  
that's exactly why, i must not repeat  
that she's the only one that i want by my side  
she's the only one that i believe can save my life  
She makes me wanna be a better man for while  
she's higher than the sky the suns and the moon

[chorus]

She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh yeeeee

She's my star my light starvy night

AVA shades coz she shines so bright  
piece of the G5, songs so right, just that i can take on G5 flight, yeh  
She's my type, just my height  
She's my fit, she's just right  
She's like, 'i think we might , go far'  
i'm like 'you're right'  
You could be my angel wings  
Her voice sounds like an angel sings  
the R&B with the trade mark strains just to try to complement the sound she brings  
She's like 'we can go far'  
i'm like 'you you you are, i'm like 'you you you are, you're alright'

[chorus]  
She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh baby  
She's like a star(like a star, like a star)  
oh yeeeeeh

like a star, like a star,  
like a star, like a star
