

Beautiful Day for the Road

James Forest

James Forest - Beautiful Day for the Road

It's a good day for the road
and time goes so fast
when you're with the ones you love
Well I won't worry today
even if time flies away

The diamonds shine on the snow
and I get tired to sleep on the back seat
I'm following the river to another show

It's a perfect day for the road
and time goes so fast
when you're with the ones you love
but I won't worry today
even if time flies away

even if time flies away...
