

Come Back Brighter

Reef

Been down, yeah
But I've come back brighter
Sun hurts
If I try to fight her I won't be sat here waiting
I won't be sat here waiting
I won't be sat here waiting for you
So come and take me on Sometimes, yeah
The black holes inside you
But if you can just lighten up yourself
It'll make you stronger I won't be sat here waiting
I won't be sat here waiting
I won't be sat here waiting for you
So come and take me on Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, c'mon Been down, yeah
But I've come back brighter
Sun hurts me
If I try to fight her I won't be sat here waiting
I won't be sat here waiting
I won't be sat here waiting for you
So come and take me
So come and take me on and on and on and on Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up
Get up, get up, get up, get up and down
