

Send Me No Flowers

[Doris Day](#)

Ever since the day that you went away
You've been sending flowers to me
Send me no flowers today
'stead of sending flowers come back to me
And hold me in your arms again There is nothing that a flower can say
That your lips can't prove with a kiss
Send me no flowers today
Got a lot of flowers and what I miss
Is being in your arms again After a break up, to kiss and make up
Is devine
My darling
It doesn't matter
Just who was right, and who was wrong
As long as you're still mine Call me up and say that you're on your way
'till you're back how lonely I'll be
Send me no flowers today
'stead of sending flowers come back to me
And love me just as I love you
