

Fallen World (Interlude 2)

Flame

Json

Yeah Marcus man it's..

Sometimes man I just..

I be confused man I..

I look around man and I don't

I don't understand why the world like this man for real

Flame

Yeah I know man it's like

Stem cell, research soon we can straight clone a man

This is crazy fallen world, I dont think we understand - I don't

Chat lines, ring tones, now we can straight text flirt

Little kids only six internet experts

Evolution is being taught in our school's in sciences class

Some schools say it's cool to have two mommies and two dadies - crazy

Internet pornography, secular psychology, a media blitz that's force it's ideologies

Crystal meth, extacy, plenty teanage pregnancies

plan parenthoods in the hood with a recipe

Rest in peace cats gettin' shot over pc3's - crazy

Now there is UID if you ain't never got a S.T.D.

Now there is UID if you ain't the one that's about curious

Upset, aggravated, no try furious without sin

9/11, next hurricane katrina, refugees

nephew please they would just waitin' on FEMA

This is crazy now video games is sellin' more than movies - filled with sex

cussin' at the person you shot with a uzi - uh huh

College is doubtness, truth can't be absolute

post modenism is a prison for those in pursuit

Myspace, facebook, world would you take a look in a mirror

to see clearly just see how you face looks

----- crime rate

Troops fightin' terrorism

Middle East is a beast so I send my prayers with them

Maranatha Maranatha

Come Lord quick quick

Hip hop's main message; get rich, get chicks

Guess what I'm sayin' the answer is

God has to judge men - okay

we need Jesus he could free us from the consequences of sin

Yeah that's where all this stuff come from man
All these problems the pain, disappointment
