

Lost

Vashawn Mitchell

I will seek You until I find You,
For the rest of my life,
I'll keep running after You
I will seek You until I find You,
For the rest of my life,
I'll keep running after You I'm lost without You,
I've finally found my place in You
Drifted away, I'm here to stay
Safe in Your grace
There's no turning back now,
Closer than I've ever been before
There's tranquility, blessed security,
Safe in Your arms so glad I've found You I'm lost without You,
I've finally found my place in You
Drifted away, I'm here to stay
Safe in Your grace
There's no turning back now,
Closer than I've ever been before
There's tranquility, blessed security, I'm lost without You,
I've finally found my place in You
Drifted away, I'm here to stay
Safe in Your grace
There's no turning back now,
Closer than I've ever been before
There's tranquility, blessed security,
Safe in Your arms so glad I've found You The search is over now
I'm right where I belong
I've found You, I've found You, I've found You The search is over now
I'm right where I belong
I've found You, I've found You, I've found You The search is over now
I'm right where I belong
I've found You, I've found You, I've found You The search is over now
I'm right where I belong
I've found You, I've found You, I've found You The search is over now
I'm right where I belong
I've found You, I've found You, I've found You
