# Need Somebody

## the subdudes

I've been drivin' this truck with a broken heart
Can't stop drivin' once I stop it might never stop
Engine roar down from Detroit, Michigan
Engine roar and roar, won't let no silence in'Cause I need somebody, need somebody
Need somebody, I need somebodyCoffee girl could be the one I need
But all she can see is breakfast number one, two and three
Everybody, everybody is a stranger to me
But nobody, nobody could be as strange as meWhen I need somebody, need somebody
Need somebody, need somebodyWell they don t have to be somebody new
Don't have to be a love so true
Could even be somebody just like you
I need somebody who needs somebody tooI need somebody, need somebody
If you ever need somebody, need somebodyI need somebody, need somebody
Need somebody
