

Never Far Away

Active Child

Coldest water breaks over my soul
Let this heart just beat like your own 'Cause you're never far away, baby
Even when you're far away, hmm I promise You're always on mind (always in my mind)
It's like I'm with you all the time
You showed me what it was to feel love
And you took me far above the rest Coldest water breaks over my soul
Let this heart just beat like your own Because you're never far away, baby
Even when you're far away, hmmm I promise
Because you're never far away, baby
Even when you're far away, I promise No I'm never leaving, no matter the reason
You keep believing in our love, we'll only keep it
You give me the strength to hold on You're always on mind
It's like I'm with you all the time
You showed me what it is to feel love
And you took me far above the rest
