

# Little Bit of Red

Serena Ryder

Ooooh.....

Hey you say you want to start over again  
like i ever wanted it to be any different.  
I've been watching all your colours fade,  
too blue.....  
said you'de come back like I'd want you want you  
stop pretending everything's all right.

Chorus:

Oh baby blue, oh baby blue  
come here I'm gonna smear another colour over you  
get out of bed you little sleepy head  
your black and white needs a little bit of red.  
your black and white needs a little bit of red.

Oooh.....

Couldn't handle pressure life had put you through  
thought you might have bit a little more than you could chew.  
no i don't believe it when you say i will make it up to  
you said you'de come back didn't want you to want you to  
still pretending everything's all right.

Chorus:

Oh baby blue, oh baby blue  
come here I'm gonna smear another colour over you  
get out of bed you little sleepy head  
your black and white needs a little bit of red.  
your black and white needs a little bit of red.

Baby blue oh  
Baby blue oh

Chorus:

Oh baby blue oh baby blue  
come here I'm gonna smear another colour over you  
get out of bed you little sleepy head  
your black and white needs a little bit of red.

your black and white needs a little bit of red.
