

Dreamer

[Yuzo Koshiro](#)

Here's my dream I'm floating down
A treacherous stream besting rapids
Whirlpools currents and when I reach you
I'll sink in your eyes
Here's my dream I'm an eagle flying over
Rivers, countries, oceans, mountains
And if you need to I'll crash for you refrain:
And though I'm just a dreamer this is who I am
I hope you'll wait for me and I'll
Return to you again
And though I'm just a dreamer this is who I am
I hope you'll be there when I need you
Take away my pain Here's my dream I am snow lying over
Trees and houses, hills and highways
And when I reach you I'll melt in your heat
Here's my dream I am fire burning down
Cities, forests, castles, towers
And when I reach you I'll burn you with my love
