Goodnight

Cheap Trick

Good night now ladies and gentlemen
Good night now ladies and gents
That's the end of the show, now it's time to go
Good night now ladies and gentlemen
Good night now ladies and gents
That's the end of the show, now it's time to go
Would you like to do a number with me?
Would you like to do a number with me?
Would you like to do a number with me?
Would you like to do a number with me?
Good night now ladies and gentlemen
Good night now ladies and gents
That's the end of the show, now it's time to go
Good night now ladies and gentlemen
Good night now ladies and gents
That's the end of the show, now it's time to go
Would you like to do a number with me?
Would you like to do a number with me?
Would you like to, would you like to
Thank you very much
We're Cheap Trick goodnight
