

# Runaway

## Ladytron

Every new day that you start  
Plans the minute you're flagging your heart, heart  
Where you waking up today  
My little runaway? Every red eye that you cross  
Makes the next feel serious  
Where you waking up today  
My little runaway? My little runaway  
My little runaway  
My little runaway Every silver shell that you crush  
Will be enough  
Where you gonna sleep today  
My little runaway? When you feel like everyone  
Wants to kill the unicorn  
Where you waking up today  
My little runaway? My little runaway  
My little runaway  
My little runaway  
...
