Where Are My Manners

The Shtooks

fourteen weeks it's been
a little too long since I've seen ya
would you like a coffee baby
If I recall a tall skinny latte
She said I'm fine
I don't have the time to stop
as she stared at the clock above the coffee shop

I thought where are my manners
where are my manners baby
I must've left my manners at the door

Why did I get played the fool
We met when we were at school
It was in English class when she squeezed my ass
Ans whispered come and meet me by the grass
His face was twisted and torn
As we stood there for while I thought

where are my manners
where are my manners baby
I must've left my manners at the door

I'll play along for now
even if I can't be polite i'll keep on asking

where are my manners (where are my manners)5x
Where are my manners baby
I must've left my manners at the door
