Fiend

American Head Charge

I want to be
Somewhere far from here
I'm watching you
As you wave goodbye
I won't take
I won't weigh you down
Following suit
So just count me outI can't get it out
Can't put it together
I should have known better
Than to turn into thisI can't believe
I've become removed
Tighten the line
And pull up hello
I will change
I won't weigh me down
Carving this space
Never count me outI can't get it out
Can't put it together
I should have known better
Than to turn into thisFiendI say
Everything's how it ought to be
I say
Nothing should ever change
I say
I only know how I used to be
I say
I don't want a fucking thing to do with itFiend
