

Slipping

Robin Lorentz, Kathleen McIntosh & Dan Morris

Meant to tell you
Tell you from the start
Meant to show you
What's inside this shallow heart
But I could not find the words
Worthy enough to say I slipped along the way
I slipped along the way Tried to be there
Be there if you fall
Tried to make you feel big
When life makes you feel small
But I could not find the steps
Quickly enough to take I slipped along the way
I slipped along the way
I slipped along the way
I slipped along the way I want to change things
Want to clear the air
Fix the things around us
So, badly in need of repair
I might not have the sense
Sense enough to change I slipped along the way
I slipped along the way
I slipped along the way
I slipped along the way
