

# (All Afternoon) In Love

## The Vaccines

Oh don't be unkind  
I'm trying to listen to you  
I thought that you wanted me too  
But it's kind of difficult to do Hey don't know it though  
We're at the end of the line  
And I might be end of my wins  
But I guess that everything fixed But I've fallen in love  
I've fallen in love  
I've fallen in love  
I've fallen in love You thought it over  
Over and over again  
And now you're walking away  
And now you're walking away Now that you're older  
Now that it's all in the past  
I want it all afternoon  
But I hope that I'll see you soon Cause I've fallen in love  
I've fallen in love
