

# Walk On Fire

## Tyketto

Ooh, come on!

Out of love, in time I've been shoved down  
Spinning 'round in circles, left me upside down

Turned my heart to stone, a rock don't bleed

My heart is a prisoner that can't break free

You come along with fire and dynamite

Blew the roof right offa this poor boy's life

I'm the cat, I howl, strikin' home

Back in business and I'm not alone

Baby I know, it's gettin' better even if it's comin' slow

Maybe this time, I could do anything with you by my side

Chorus:

Walk on, I could walk on fire, face the wind and stayin' true

Walk on, I could walk on fire, you don't know what I wouldn't do for you

Here's what I'd do

Now I got heart and soul back on the line

Some think to steal you, huh, they're welcome to try

I can't say that you are the reason why

It's a game for two and it's you and I

Baby I know, it's gettin' better even if it's coming slow

Maybe this time, I could do anything with you by my side

chorus - yeah

(Solo)

chorus

Walk on, walk on fire (repeats out)

---
