Islands

Young The Giant

Five days
Underwater
Near your island
Off the coast
I know
Five ways
You were my lover
Incantation
All the time
In rhyme
Oh, Out in the glow I'll find you waiting

Oh, Has it been so long now, aa-a-aah
Oh, I thought you knew that I'd be coming
The way you move, a foreign groove, at night
I could never
I could never hold you
Watch it rise up and where you hide your pearls
Feel it pile up where you cast those stones you wear
When no one's home, do they feel cold on your bones
All the years I've missed your warmth
Have you missed my warmth?
On your island, oh
