Tired Old Man

Godhead

I want to be overcome
But I can't, I am numb
I want to see what's become
Close my eyes, bite my tongueIf you believe in me
I'll try not to die
If work keeps me living, it's got to start giving
Me life, not just strifeI'm so tired of living here
I'm so tired of giving here
I'm so tired of living here
I'm so tired of giving hereI want to run and be free
But I can't, I'm so weak, yea
I want to hold you again
In my arms, my old friendI have just one more chance to feel
What is real
I can't keep on going, I feel my mind slowing
My heart's torn apartI'm so tired of living here
I'm so tired of giving here
I'm so tired of living here
I'm so tired of giving here
