Dangerous

[Ghost of the Robot](#)

I don't think you know my name
I think you'd leave me standing in the rain
You're a pretty little girl, got a thing for me
But you'd cut me open and let me bleed
But I'll be lookin' at you
With your long brown hair
Pretty little feet
Sparkling everywhereYou look so good
When you come my way
But I have to look down
When you talk to me'Cause you're dangerous
Dangerous
Dangerous
And you don't even know itOne baby, two, maybe three more years
You'll be a full hot baby, have all your curves
And here's a little taste of irony
You'll be a too-hot baby, too good for meBut I'll be looking at you
With your long brown hair
Pretty little feet
Sparkling everywhereYou look so good
When you come my way
But I have to look down
When you talk to me'Cause you're dangerous
Dangerous
Dangerous
And you don't even know itSo little baby, you better stay set
Play with fire when you get too wet
So set me down and leave me be
You'll get a devil when you unchain meBut I'll be looking at you
With your long brown hair
Pretty little feet
Sparkling everywhereYou look so good
When you come my way
But I have to look down
When you talk to me'Cause you're dangerous
Dangerous
Dangerous
And you don't even know it
