Goodbye To The Island

Bonnie Tyler

Goodbye to the island
Hello to the rain
It's gone like a dream in the night
And it won't be back againGoodbye to the island
Where our bodies touched
Goodbye to a little bit of heaven
And I miss you so muchWhy love did you treat me this way?
Why love did you treat me this way?
Why love did you treat me this way?
Why love did you treat me this way?A bed, it is an island
A world apart
Soft words in the middle of the night
Straight from the heartTwo heads on a pillow
So warm, so close
Goodbye to the island
Where it, where it mattered the mostWhy love did you treat me this way?
Why love did you treat me this way?
Why love did you treat me this way?
Why love did you treat me this way?Goodbye to the island
Hello to the rain
It's gone like a dream in the night
And it won't be back againWhy love did you treat me this way?
Why love did you treat me this way?
Why love did you treat me this way?
Why love did you treat me this way?Why love did you treat me this way?
Why love did you treat me this way?
Why love did you treat me this way?
Why love did you treat me this way?
