

Have You Ever Been This Low?

Suede

Have you ever been this low?
The taxis take you where you wanna go
Broken windows, endless television shows
I haven't ever been so low
I am the one, I sing the song
My lights are on but there's nobody home
So much happening today

A thousand people come and go
And stay and fade away
They draw the blinds and watch the show
Have you ever been so low?
I am the one I sing the song
My lights are on but there's nobody home
Nobody home
