Nature of Things

Juliette Commagere

There was a time
When you were all I had
And every night
I cried I loved you like madBut love it changes like the moon
Like winter bears braes
'Cause, baby
That's just the nature of thingsI tried to fight it
This fire grown dead
And I watched you hide it
What a mess we've been inAlways don't look back through it
Go through the leaves
I'll take their lead
'Cause that's the nature of thingsSo I'll walk away
I'll be the one they say is back
'Cause we both know we're afraid
To leave love in the pastOh, it should kill me
It should pull all my heart's strength
But I am doing fine
That's just the nature of thingsThat's just the nature of thingsThat's just the nature of things
