

Drink The Water

Buckcherry

The curse of deception - it's urgent
You're self-sufficient but blind
Time to create, tormented butterfly
So instrumental it seems, oh
Deadlines, commitments, drink the caffeine
Don't mind me; I'm sick from drugs
Blew through your love just like a hurricane
Eight ball, insinuates love

[Chorus]

We're coming 'round the bend again
You know you wanna tell your friends
Yeah, you, you wanna know that
Your mind, your love
The pictures and the colors are cooling
Your mind, your love
Now, don't you feel the movement? It's soothing

That girl behind you has got the cocaine
She hasn't felt good in years, Lord
I can't wait to find what I'm looking for
I know it's gotta be here
Dog-faced complexion in through the out door
Don't mind me; I'm just undone
Long lines expecting me to drink to standard
It's just enough to stop me from shaking

[Chorus]

Drink the water
Drink the water
Drink the water
Everybody, c'mon

We're coming 'round the bend again
You know you wanna tell your friends
Yeah, you, you wanna know that
Your mind, your love
The pictures and the colors are cooling
Your mind, your love

Now, don't you feel the movement? It's soothing

Your mind, your love

The pictures and the colors are cooling

Your mind, your love

Now, don't you feel the movement? It's soothing

Your mind, your love

Your mind, your love

Your mind, your love

Your mind, your love

Your mind, love

Mind, love

Mind, love

Mind, love
