

# Angels (With Broken Hearts)

## Europe

We build our wings  
In so many ways  
We build our hope  
It's the last thing to fade  
And we build our love  
Please don't take it away  
Out of the night  
Come these angels with their broken hearts  
They watch us tear this world apart  
Oh no  
Out of the night  
Come these angels with their broken hearts  
For you  
We build our lives  
Hopefully the one that we choose  
We keep our faith  
When there's nothing left to lose  
We give our hearts  
Please don't tear them apart  
Out of the night  
Come these angels with their broken hearts  
They watch us tear this world apart  
Out of the night  
Come these angels with their broken hearts  
They watch us tear this world apart
